ed against purchasing or in any other way
interfering with the mailboxes, postages,
train crops or premises now on the lands
known as the "Saskatchewan Farm," situated on
the River Lot No. 21, Prince Albert, and about 40
acres of which are alleged to be under grain: such
premises, lands and grain crops having been
rented by me for one year from the first day
of May last under letter of agreement dated
2nd March, 92, whereby in addition to the
rent agreed on the owners undertook to pro-
vide seed and labor and to sow in a proper
manner said acres or thereabouts, of grain
and to hand over to the undersigned and his
assigns possession of same on the first of
his arrival in Canada, on being paid current
rates for such seed and labor and for the per-
formance of such duties ample tender has
been made.

RICHARD MITCHELL,
Duck Lake, 15th August, 1892.

HAULTAIN DEFEATED

Saskatchewan Members
Victorious.

(By Special Telegram to The Times.)

Mr. Haultain was defeated today on a
"want of confidence" motion, relating to
the treatment of the members from Sas-
katchewan, by a vote of 13 to 12.

The motion was brought in by Mr. Betts
and seconded by Mr. Mowat, of Regina.

LATER.

Haultain moved for a committee of
supply.

Betts followed with a strong criticism
of the general policy of the Executive
Committee, particularly in connection
with the interest of the Saskatchewan, and
moved a want of confidence motion, which
was carried.

Haultain refused to take his medicine
in the usual way and again moved for
supply.

This motion was checked and a
second vote adverse to the Executive was
recorded.

All the Saskatchewan members, except-
ing Mitchell, participated in the debate
and voted for Betts' amendment.

Haultain has resigned, and it is stated
on good authority that Betts has been
summoned to the Government House
with a view to forming a new Executive.

Pure Gold Turkish Coffee is the best
Coffee in the world.

THE RIFLE.

The seventh and last match of the North
West Rifle League was shot off on Satur-
day. The day was good for shooting not
withstanding the heavy fish-tail wind that
was blowing, and the local team piled
up a fairly good score, which may be seen
from the following—

	200	400	500	75
McKay, Geo.	29	24	25	79
Kerr, W.	29	28	25	83
Cotton, Major.	31	34	25	91
Williamson, D.	27	33	27	87
St. Denis, O.	27	21	29	77
	143	149	134	417

For Over Fifty Years.

MRS. WINDLOW'S SOOTHING SYRUP has been
used by millions of mothers for their chil-
dren while teething. It is a safe and reliable
remedy for all the troubles of teething, and
is a most valuable and useful medicine.
It is a most valuable and useful medicine.
It is a most valuable and useful medicine.

Remember that you are made out of
the same kind of dust as all other peo-
ple.

The man who has the right kind of
wisdom never makes the same mistake
twice.—Ran's Horn.

PRETTY THINGS FOR THE TABLE.

Chocolate cups are tall, large at the
top, gilded and jeweled, with the paint-
ed faces of court ladies smiling upon
them.

The handsome and costliest table
glass is pure white flint cut to a plain
surface and overlaid with golden flow-
ers, leaves and scrolls.

Exquisite dishes for serving terrapin
are in the shape of sea shells, with all
the exquisite pink and green shading.
They are in excellent taste.

It is the fashion to have breakfast,
lunch and dinner sets of the same kind
of china. White and gold English
china, with a gold monogram or crest
in the center, is used.

A novelty in table ware is the gold
lace ware used for cracker boats, fruit
dishes and so on. It is of gold filigree
as fine and brilliant as real lace. In-
side the gold comes a movable dish of
plain, clear glass, to which the gold is
accurately fitted.

Washington, D.C., August 15, 1892.

Washington is depopulated in part by
the departure of the President, Cabinet
Officers, Congressmen, fashionable and
vacation-takers. The latter includes
hundreds of Government clerks the
major part of whom get away for a month
in summer. Nine hundred clerks meet
in convention this week but otherwise
visitors are scarce. Few excursionists
and few bridal parties. The prominent
business men, lively politicians, and inter-
esting interviewers who throng the hotels
while Congress is in session come no
more and the supply of capital prophecy
fails. Nobody comes to claim Indiana,
Wisconsin, Iowa, Kansas, Virginia, North

SAVED HER YOUNG.

A man and his young son, a large herd of cattle.

A herd of five thousand head of cattle, says a correspondent of the Vancouver Times, leaving behind them a trail of blood and fire, and a trail of death as they have been driven from the fire-breathed of a snout.

Subsequent to the leader of the herd, a horse started back in terror, gave out a sort of warning, and moving in the right passed on. Those immediately in his rear turned to right or left, and their example was followed by the whole herd, and as he reached the wooded spot.

When the entire herd had passed a white trampled track lay behind, but near the middle of this dusty space was a prominent island of grass three feet in diameter.

A person rode up to the spot and dismounted, expecting to find a rattlesnake, a creature of which cattle are much afraid. He found, however, a small, harmless lizard. Instead of a serpent, however, the grass tuft contained only a harmless lizard, covering her nest, while her wings were kept in constant and violent motion. Seen immediately through the grass, she had evidently been mistaken for the deer for a rattlesnake.

She did not take flight, even at the sight, but vainly pecked at his feet as he gently pushed her to one side to find that the nest contained four unguarded chicks.

RIGHTEOUS INDIGNATION.

Aunt Sarah felt as if she had lost her wings.

Not long since, says the Washington Post, an old colored auntie came to the capital from a small town in Virginia to look for a gentleman who had known what an expert she was in preparing toothsome dishes since his boyhood. The employer was on the sporting order, and knowing the old woman to be of a deeply religious nature, he took care to keep her in ignorance of the fact that she was to provide meals for a festive club where draw poker was the nightly programme.

For a few days things went on swimmingly. The habits of the place pleased the cooking to the skies, but their good living was not to last. Aunt Sarah discovered by accident that the people whose palates she was pleasing were an irreverent lot, and that they were habitual card players. The discovery appalled her. Rushing into the room where a dozen men were intent on a peloté she shouted:

"I'm givin' right back home. Yonkin' get another creek dish every day, Marjorie. I feel just like you had taken my wings from me so I can't never fly to heaven. All de money in Washington couldn't keep dis old woman in dis sinful place."

The very next train on the Virginia Midland numbered Aunt Sarah among its passengers.

American Forests.

Pond canoes are often found in the upper Mississippi and its rivers, down to the lakes, but whenever a pond is discovered in any locality at the mouth of the stream are immediately destroyed by persons in a boat of theirs. If the pond were a dam, it would be considered as a dam in some parts of Germany, pond fishing might become an important industry in this country. In Germany the streams are carefully preserved and are fished for pearls only once in ten or fifteen years. The shell of pearls picked out of the river are carefully opened with a pair of pliers made for the purpose, and if no pearl is found then the shell is replaced in the water. By means of such a system as this the annual find of pearls in the German empire exceeds \$250,000 every year.

Australian Forests.

With the exception of a living carpet of delicate maidenhair, which attains a height of from five to six feet, and of ropes of creeper ferns waving from tree to tree like fairies' hair, the eagle of a giant, the forest of Australia is altogether bare of undergrowth. In the valleys of recent growth, however, vegetation is more luxuriant. The long tendrils of the climatis and rata vine, net trunk with trunk in garlands of white and scarlet bloom, and at their base flourishes an infinite variety of ferns, while here and there a graceful tree fern rears its silvery-lined crown.

Children Need Not Fear About the Presence of Their Cousins.

A party of tourists witnessed a strange sight near this place a few days ago, says a Boston N. A. correspondent, out of the Philadelphia Press. While going by a little house near the road they heard the frantic screams of a woman. Several of the men ran to the house and found her standing in a side door screaming: "My child! My child!" and pointing to an out-house, on top of which sat a big ball eagle, with a child about one year old in its talons. Before any of the party could shoot the noise frightened the bird, and picking up the child, he flapped his enormous wings, and started away. The weight of the child, however, was almost too much, and it seemed impossible for him to rise more than fifty feet above the ground. A Mr. Roberts in the party had a rifle, but feared to shoot, knowing that if the bird was killed the boy would fall to the ground and be dashed to pieces. The half-crazed mother and the party of tourists ran along, keeping as near the eagle as possible. At last the mother implored Mr. Roberts to shoot the bird. Thinking the boy's death was almost a certainty in any event Mr. Roberts took careful aim and fired. The eagle gave a scream and began beating the air vigorously with one wing, while the other hung useless by his side. It was almost a minute before the strength of the bird gave out, and it began to fall, still holding the boy in its talons. It came down, slowly circling about, and getting lower and lower each time and at last reached the ground. The mother rushed for her child, but the eagle began to fight with the boy, and it was not until it had been killed with the butt of the rifle that the child was released. The talons of the eagle had gotten well tied up in the child's clothes, and this had saved the boy's life. He was black and blue in places by being beaten by the eagle's wings, but was not otherwise hurt. The mother told the tourists that the eagle had been about the house for a long time and had almost become a pet. It had seemed to be much attached to a dog owned by her husband and spent much of its time near the dog's kennel. A few weeks before the dog had shown symptoms of madness and had been shot. Since then the eagle had seemed very vicious.

THE ASSEMBLY.

Wednesday, August 10th.

House met at 2:30 p.m.

Mr. Rogers moved from Special Committee to read the Bill respecting Cemeteries and Burial Grounds.

Mr. Mowat introduced a Bill to amend and consolidate Ordinances relative to the practice of dentistry. It was read a first time.

Mr. Hamilton's motion for the holding of night sessions was adopted, and his "Marriage Ordinance" got its first reading.

When the entire Bill had passed a white trampled track lay behind, but near the middle of this dusty space was a prominent island of grass three feet in diameter.

A person rode up to the spot and dismounted, expecting to find a rattlesnake, a creature of which cattle are much afraid. He found, however, a small, harmless lizard. Instead of a serpent, however, the grass tuft contained only a harmless lizard, covering her nest, while her wings were kept in constant and violent motion. Seen immediately through the grass, she had evidently been mistaken for the deer for a rattlesnake.

She did not take flight, even at the sight, but vainly pecked at his feet as he gently pushed her to one side to find that the nest contained four unguarded chicks.

The report of the Agricultural Committee recommending the grant of a small sum of money towards organizing a dairyman's association was next taken up in Committee of the Whole. A short debate ensued; several members from the more remote districts opposing it, chiefly on the ground that as the initiative meeting was to be held next week their constituents could not be properly represented there.

The House divided on the motion to adopt the report, when it was carried on the following division:

YEAS.	NAYS.
Betts, Boncher, Campbell, Dill, Davidson, Hamilton, Kelly, Knowling, Meyers, Mitchell, Mowat, McKay, Neill, Page, Ramsay, Sullivan, — 16.	Clack, Louchin, Magrath, Oliver, Prince, Wilkin, — 6.

The House then adjourned.

Thursday, August 11th.

Mr. Magrath's motion for special committee to enquire into claim of Mrs. Fuller for compensation re glazier's horses was allowed to stand.

Mr. Page moved the second reading of the Bill re Agricultural Societies.

Mr. Betts complained that the arrangement for the distribution of Bills seemed very imperfect. He had no objection to the Bill now being introduced, but claimed he had not proper time to study it.

Mr. Jolly thought an important change was contemplated in the Bill.

Mr. Page extended that no new principle was being introduced, but he was willing to let it stand until tomorrow.

The House then adjourned.

Friday, August 12.

Promptly at 2:30 p.m. the Speaker took the chair.

After the usual routine of reading minutes, etc., several notices of motion were given and Mr. Jolly spoke at some length to a question of privilege, the License Bill was discussed.

Mr. Hamilton moved for the second reading of the Bill to amend the License Ordinance. It was proposed by the amendment to increase the wholesale minimum quantity from one bottle to six bottles and from a half gallon to one gallon. Another amendment introduced that all applications and other cases arising under the Act should be heard open. Another provision was that each hotel should have a sitting room separate from the bar. It is also intended to make the time for closing on Saturday nights the same for wholesale places as for hotels. There was no good reason why the former should be kept open until ten and the latter close at seven. At present liquors might be sold to guests though under eighteen years of age. He proposed to have this amended. It was also proposed to define more fully and to limit the wholesale districts. There is no particular limit at present and a man may open a wholesale out on his homestead. It is undesirable to have a large number of officials travelling, presumably on official business at the public expense, and this would be guarded against.

The House then went into Committee of the Whole.

Mr. Knowling moved an amendment to subsection 1 of sec. 15 which requires that applicants outside of municipalities be recommended by ten out of twenty of the nearest householders. He wished the word "ten" struck out and "fourteen" inserted instead. This amendment gave rise to a great deal of discussion and was lost on a division, Ramsay, Page, Knowling, Betts, McKay, Dill and Oliver being its only supporters.

Other amendments were discussed. The Bill will come up again.

The Committee rose and reported progress.

Mr. Betts' Bill to amend the "Exemption Ordinance" was dealt with. He said that under the old Ordinance a mechanic was allowed to keep all his "tools and other necessities" free from his creditors. The amendment proposed to exempt the tools and instruments to the extent of \$100 worth.

Mr. Oliver said that \$100 would not cover the tools of a blacksmith and was too small.

Mr. Betts—Well, make it \$200.

Mr. Mitchell favored making it \$400 or \$500. He did not see why mechanics should not be protected to the same extent as farmers.

An amendment of Mr. Oliver's was made, excepting "the necessary tools and stock to the value of \$200."

Adjourned.

THE FOUR CARDINAL POINTS.

The four cardinal points of health are the stomach, liver, bowels and blood. Wrong action in any of these produces disease. Burdock Blood Purifiers act upon the four cardinal points at one and the same time, to regulate, strengthen and purify, thus preserving health and removing disease.

THE CHILDREN'S FRIEND.

Gentlemen, Last summer our children were very bad with summer complaint, and the only remedy that did them any good was Dr. Fowler's Extract of Wild Strawberry. We used twelve bottles during the warm weather and would not be without it at five times the price.

Jas. Healer, New Edinburgh, Ont.

LOCAL HAPPENINGS.

Gathered in Our Midst.

Fifty lbs. Granulated Sugar at Stewart's for \$3.25.

A car load of salt has just arrived for S. McLeod.

Pure Gold Goods are guaranteed in every respect.

Straw Hats of all kinds for men, boys, and girls at Baker's.

Messrs. Gillespie & Lawson, of Regina, brought in a car load of fine general purpose horses, which they are offering for sale.

At the Queen's—A. Eldekin, Regina; A. Charon, Ottawa; T. Wright, Moose Jaw; J. H. Holman, S. Barns, J. J. Black, Winnipeg.

The new photo gallery is about completed. Another coat of plaster will make it ready for occupancy and Mr. O'Meara, the artist, is happy.

The brick work on Conn's new building is about completed, and the contractor, T. E. Baker, has the carpenters at work doing their share.

We are much pleased to know that Conn. MacLeod is now rapidly recovering from the effects of the severe fall he received some days ago.

J. H. Holman, traveller for Bateman & Co., wholesale linen manufacturers, of Winnipeg, is here in the interests of his firm, and is staying at the Queen's.

At the Royal—J. A. Montgomery, Ireland; R. Ironside, M.P.P., Manitoba; J. M. Paul, Wingham; A. Lafferty, Winnipeg; D. McIntosh, D. H. Gillespie, F. C. Lawson, Regina.

A leading question—How can I save money? By buying your goods at F. C. Baker's.

J. W. Hurd returned from a trip to Sandy Lake on Monday. He is very enthusiastic over what he saw of the Shell river country and the crops throughout that section.

The gentleman who left a walking cane in M. O'Connor's barber shop about two weeks ago, can get the same at THE TIMES office on proving property, and paying for this notice.

Duck shooting has not been gone into so enthusiastically this season as usual. A trip around the lakes in the neighborhood shows the ducklings to be "a'er young to leave their mothers yet."

F. C. Baker is offering Tea Sets at \$4.00 and Dinner Sets at \$2.50.

Saskatchewan Court, L. O. F., will hold its regular meeting on Friday evening next. A good attendance of members is requested as business of importance will occupy the court during the evening.

The Prince Albert contingent of the Salvation Army continues to hold the fort. Almost every evening Saskatchewan Hall is comfortably filled with hearers, and already the Army lasses have secured quite a following.

Fifteen lbs. Sugar and four lbs. Tea for \$2 at Stewart's.

Work on the town hall is progressing fairly well, considering the scarcity of brick for the past couple of weeks. Mr. Condon is economizing time by working around the wall now, etc., where the work is necessarily slow.

The directors of the Lorne Agricultural Society have prepared a prize list for the annual exhibition. Posters will be issued next week. We hope to see everybody put their shoulder to the wheel and let us have an exhibition of which we can all be proud of.

Try Rose. Vanilla the new flavoring. Extract most delicious flavor.

C. Hamilton with a gang of men, horses and all other necessary apparatus is slowly but surely bringing up J. R. McPhail's double store from the east end to the centre of the town. It will be a handsome addition to J. R.'s corner when placed in position.

In the list of names of those who were successful at the recent examinations for teacher's certificates, we notice that of Miss Graham, of the Prince Albert Union School, who secured a Second Class B. Also those of A. Irvine and R. E. McCullagh, who each obtained a Second Class B. These three were, we regret to say, the only successful candidates from Prince Albert.

Don't be deceived with imitations; the only place you can buy Manitoba Flour in town is at S. McLeod's.

The following are the names of the pupils promoted from the Public to the High School department of our Union School at the recent examinations, in the order of merit—A. J. Campbell, 114; Bertie Brooks, 629; Thos. McKay, 601; Theo. Fraser, 635; Berne Reid, 616; Jessie McBeath, 615; Harry Brooks, 593; Adam McKay, 595; J. Mitchell, 553. From the Island Lake School—D. Shipman, 614; B. Shipman, 595; V. Shipman.

Farmers throughout the district are now busy with the harvest. In all directions grain is ready for cutting, and many farmers have already commenced cutting. We regret to hear there is prospect of a scarcity of binding twine, but hope this difficulty will be got over in time to save any delay in the work. Never was there a better prospect of good grain and good crops than this season, and we trust no thing will occur to mar our glorious harvest.

Imported S.B. Flour at Stewart's—\$2.50.

Pure Gold Flouring Extracts are the best.

\$5.00 will buy a fine Tweed Suit at T. O. Davis.

S. McLeod has just received another car load of Manitoba Flour.

THE WORST FORM.

Dear Sir,—About three years ago I was troubled with dyspepsia in its worst form, neither food nor medicine would stay in my stomach, and it seemed impossible to get relief. Finally I took one bottle of B. B. and one box of Burdock Pills, and they cured me completely.

Mrs. S. B. Smith, Emville, Ont.

IMMIGRATION COMMITTEE.

Annual Meeting of the Prince Albert Immigration Committee.

A meeting of the Immigration Committee was held on Monday, at which Messrs. Stewart (the chairman), Donaldson, Baker, Young and Davis were present.

The chairman explained that the object of the meeting was to take steps for the proper representation of the Saskatchewan District at the World's Fair at Chicago, and for the purpose of securing the best possible exhibit of grasses, grains, roots, etc.

It was decided to offer special prizes at the fall show of the Lorne Agricultural Society, to be held on the 31st Oct. next.

1. For collection of grasses grown in the district. To consist of not less than ten varieties. 1st prize, \$15; 2nd prize, \$10; 3rd prize, \$5. The grasses should be cut at once and properly dried in a dark room free from damp, and should be in bundles of about six inches in diameter.

2. Special prizes of \$25, \$15 and \$10 for the best collection of grains grown in the district. Samples to be twenty pounds each and to consist of at least four varieties. The exhibit must be in bags furnished by the committee, which may be obtained upon application to the secretary of the committee, Mr. J. M. Coombs.

3. A special prize of \$5 for the best collection of roots. Quantities and varieties will appear in the prize list of the Lorne Agricultural Society.

The grasses, grains and roots carrying off prizes to become the property of the Immigration Committee.

It was further resolved that in order to secure the best judgment possible in these classes, special judges be appointed as follows—one by the Immigration Committee; one by the Lorne Agricultural Society; and one by the Farmers Alliance. By those means the committee hope to obtain the best possible exhibits from this district for the Chicago World's Fair.

DUCK LAKE.

Mr. A. Holmes, contractor, of Prince Albert, has just completed the new school house here. It is a very useful and commodious structure.

We understand the members of the I. O. F. have secured the hall above the school for their meetings. It is well adapted for this purpose and we trust the Foresters will grow and prosper.

Mr. Littlefield, of Battleford, paid on town a visit this week in the insurance line, but found this particular line of business dull.

Dr. Stewart has returned from a vacation tour. He visited Snake Plain agency and Sandy Lake Indian.

Harvesting is the order of the day now and the outturn will be a good fair average, though the weather is not just all that farmers could wish.

Our local sports are dead bent on fresh meat and the poor ducks are suffering in consequence. They are not so numerous as usual this fall.

Ask for Pure Gold Baking Powder Purest in the world.

Imported Strong Baker's Flour \$2.40 per sack at T. O. Davis.

Reductions have been made in all lines of summer goods at F. C. Baker's.

The Bill to incorporate the Roman Catholic Vicarage of Saskatchewan has been put through the final stages and passed.

Contractor Fawcett is having work on the new R. C. Cathedral pushed forward as rapidly as possible. Already the building gives promise of making a handsome structure when completed.

In the manufacture of tobacco from the leaf, sugar or molasses and gum of some kind are used. In the manufacture of the "Myrtle Navy" brand the sugar used is the finest white sugar, known in the trade as granulated. This is a sugar in which there is seldom any adulteration, but to guard against the possibility of it, all sugar used in the factory is submitted to careful tests of its purity. The gum used is the pure gum arabic.

The following pupils of East End Public School No. 10 successfully passed the Promotion Examinations to Standard IV held in July, 1892. The total number of marks possible was 970—Josie Deacon, 857; R. Garvin, 782; Margaret Giles, 780; Violet Bartlett, 779; Margaret Olsen, 775; Violet Bartlett, 775; Jessie Truscott, 767; Ida Clark, 764; David Thompson, 725; Flora Giles, 710; Wm. S. Miller, 700; Ida E. Giles, 677; Lottie M. Clarke, 639; Chas. Truscott, 599; Alf. A. Deacon, 576; Lucy J. Bartlett, 558; Percy Little, 533; Arthur Garven, 521; Ollie Garven, 521; Wm. A. Giles, 514.

Beware of imitations take note but Pure Gold Lemon or Vanilla.

The trotting record has taken another drop, and an unexpected one. With the retirement of Maul S. to the breeding farm, with Polo Alton's death and Allerton being lame, with Sonul's lack of confidence, only Nancy Hanks was left to make any reduction in the speed time of the trotting mile. J. Malcolm Forbes' great mare has been manfully trying at several places to beat the record, but she had not succeeded until Thursday last, when at Washington Park, Chicago, in the presence of 10,000 delighted spectators, Buhl Double drove Nancy Hanks in 2:07; a trial against time to beat her own record of 2:09. This performance reduces Saul's time, made at Stockton, Cal., by a second, and it beats Maul S.'s time of 2:08, made at Glenville, O., in 1885, by one and one-half seconds. Her triumphal chariot is a queer looking rubber-tired pneumatic bicycle sulky weighing 62 pounds. The official time for the mile (which was as honest a mile as was ever trotted) is 3:11; 1:03; 1:56; 2:07. Nancy Hanks is a bay, 6 years old, 15 1/2 hands high. She was sired by Happy Medium out of a Dictator mare.

There is a gentleman at Malden-on-the-Hudson, N. Y., named Captain A. C. Pareis, who has written us a letter in which it is evident that he has made up his mind concerning some things, and this is what he says:

"I have used your preparation called August Flower in my family for seven or eight years. It is constantly in my house, and we consider it the best remedy for Indigestion, and Constipation we have ever used or known. My wife is troubled with Dyspepsia, and at times suffers very much after eating. The August Flower, however, relieves the difficulty. My wife frequently says to me when I am going to town, 'We are out of Constipation of August Flower, and I think you had better get another bottle.' I am also troubled with Indigestion, and whenever I am, I take one or two teaspoonfuls before eating, for a day or two, and all trouble is removed."

Why you take Cold and Cough.

Generally caused by exposure to cold, wet feet, sitting in a draught, coming from hot and crowded places, in this dress, or wearing damp clothes, stockings, or any other cause tending to check suddenly the perspiration. The result produces inflammation of the lining membrane of the lungs or throat, and this causes phlegm or matter, which nature tries to throw off by expectoration. In many cases she is unable to do so without assistance, and this is
